

EDUCATION

Bachelor of Science in Information Technology

University at Albany, SUNY

- Relevant Coursework: Intermed Interactive design, Human-computer Interactive Design, Programming for Problem Solving, Intro to Data and Databases, Emerging Trends and Info Technology, Intro to Web Technologies, Digital Design
- GPA: 3.86/4.0

Associates of Science in Fine Arts

Hudson Valley Community College

- Relevant Coursework: Drawing I & II, Color Theory, Photography I & II, Painting I & II, Gallery Management, Art History
- GPA: 3.52/ 4.0

EXPERIENCE

CEHC Ambassador Internship

University at Albany, SUNY

- Contact prospective and current undergraduates to provide them with mentorship and knowledge about the College of Preparedness, Homeland Security, and Cybersecurity.
- Through educational R&D, I design and conduct trials, analyze student challenges, and help develop solutions to improve university transition programs and online student support.

PROJECTS

Women-Only Bar Branding

Digital Design

- Developed a full brand identity for a women-only bar concept in Bangkok, featuring a sophisticated velvet, black, and gold palette.
- Created the brand vision, mission, and storytelling elements, including logo concepts, typography pairings, and visual moodboards.
- Designed promotional posters and mock-ups using Adobe Illustrator and Photoshop, applying research-based design decisions focused on luxury, safety, and inclusivity.
- Built cohesive visual guidelines by translating conceptual goals into refined layouts, imagery, and messaging.

RoamReady

Intermed Interactive Design

- Lead the development of a website that gives travelers a way to efficiently plan out their trips by providing an interactive itinerary-building tool.
- Using Figma, HTML, CSS, media queries, JavaScript, PHP, and JSON, my team created an interactive website with a user login system.

Urban Pulse

Human-Computer Interactive Design

- Developed a social networking app designed for nightlife enthusiasts.
- Researched competitor apps, created and presented my product brief to the instructor and peers.
- Sketched and developed a prototype using Figma.

TECHNICAL SKILLS

- Figma, HTML, CSS, JavaScript, PHP, SQL, Python, Microsoft Office, Adobe Suites, MongoDB, LucidChart, Tableau, GitHub

LANGUAGES

- English - Native language
- Thai - Intermediate conversational, basic reading and writing

NOTABLE AWARDS AND SCHOLARSHIPS

- Dean's List, University at Albany, SUNY
- National Honor Society, Omicron Delta Kappa (ODK), University at Albany, SUNY
- Merit Scholarship
